## About Happy Heiny's One For All Onesize Pocket Nappy

Happy Heiny's ONE FOR ALL adjusts from Newborn to Large, fitting most babies from birth to potty training!

**FOUR  
SIZES IN ONE!**

*Adjust size as baby grows!*

As your baby grows, simply adjust the size by using the snaps on the front of the diaper.

1. Better Fit for Smaller Babies – The One-Size nappy rise has been shortened a bit to fit smaller babies better. The rise on the Happy Heiny's One-Size Nappy continues to be longer than other brand's to ensure a comfortable, snugger fit for a wide range of body types.
2. Same Great Fit for Larger Babies - Happy Heiny's One-Size now offers a better fit for both big and small babies, and every size in between! The improvement in fit for smaller bodies has done nothing to compromise the great fit and comfort for larger babies that customers expect from Happy Heiny's.
3. Less Bulk. Less Drooping. – The improved One-Size now features a smaller belly panel and reduced width between the leg openings. This styling change means less bulk in the bottom and less drooping for a better look, fit and feel!
4. Leak-Resistant – Happy Heiny's works to make nappy changes as easy as possible. The latest design “tweaks” go further to prevent leaks. The new leak-resistant design offers improved performance over the original One-Size, especially when worn by slender to average weight babies.
5. Longer Life – Happy Heiny's nappies include fantastic elastic bindings that are easy to replace if needed. With this value-added assurance, the investment in reusable cloth nappies lasts even longer, through multiple changes and multiple siblings, if necessary!
